

# Individual Tutoring and Group Tutoring

Which One Works Best for Me?

## Individual Tutoring

## Group Tutoring

### What is Individual Tutoring?

- Work one-on-one with a tutor to help clarify course content, work through problem areas, and enhance your study skills

### What is Group Tutoring?

- Work with a tutor and up to three of your classmates to help clarify course content, work through problem areas, and enhance your study skills

### What is Individual Tutoring Best For?

- Working with a tutor with assistance for your individual questions on a particular problem, assignment, or course content
- Getting a different perspective from your tutor on a particular problem or assignment
- Learning different approaches to a particular problem, assignment, or course content from your tutor
- Enhancing your own study skills through your individualized session with your tutor

### What is Group Tutoring Best For?

- Working with a study group of your classmates on the same problem, assignment, or course content
- Getting different perspectives from your classmates on a particular problem or assignment
- Learning different approaches to a particular problem, assignment, or course content from both your classmates and your tutor
- Enhancing your own study skills through interacting with your classmates and your tutor

**Sign Up for Both!**

Having both individual and group tutoring sessions can help clarify your course content and help enhance your study skills through multiple methods!
